C50S

DEFYING CONVENTION

Wine C50S, more power

To answer to all configurations requirements, FONDIS proposes the Wine C50S air conditioner which condition up to 50m³*. The built-in installation of Wine C50S through the wall is quite easy and enables you to transform any well insulated room into a real wine cellar for an adapted storage of your best wines !

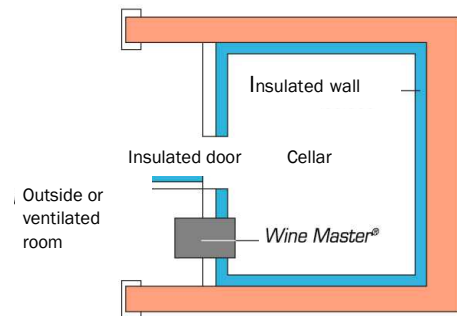

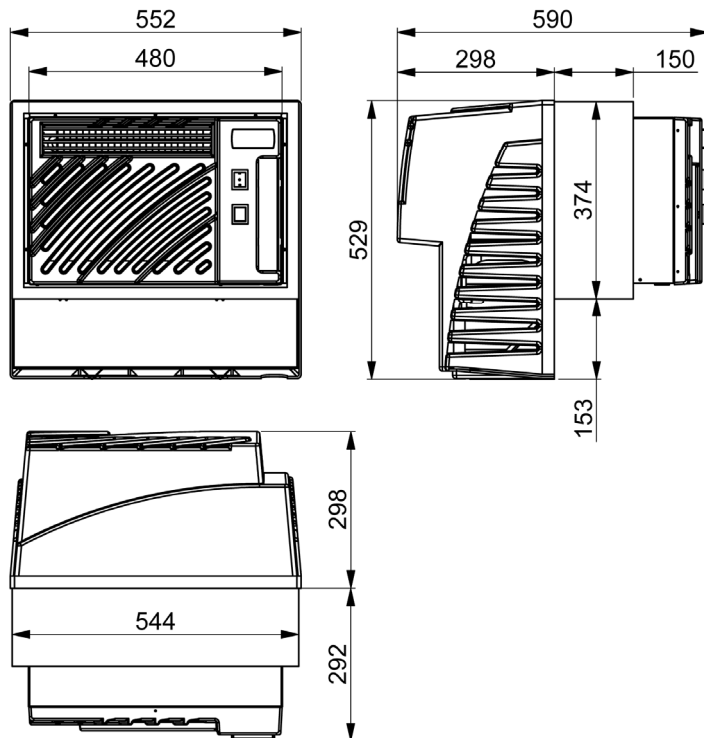

Data

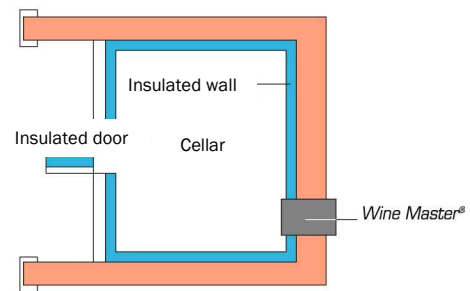

- Complete standard equipment
- Wines are protected against excess light by a built-in night light
- Easy to install with its wooden set-in frame
- Specially equipped for very cold areas, the C50SR can be integrated in the outside wall

YOU CAN STORE A LARGE NUMBER OF WINES WITH THE WINE C50S

- Maintain an even temperature in the cellar between 8 & 15°
- Humidity control : condensation of moisture excess and evacuation to the outside
- Anti-vibration system through elements mounted on rubber shock absorber
- Dimensions of the device enabling its adaptation to different rooms (cellar, attic...)
- Power consumption controlled by the fans on condenser side
- Ecological coolant (gas R404a without CFC)
- Increase the compressor power through gas R404A
- Heating function for models C50S & SR (heating belt)

C50S

C50SR

Reference	Wine C50S
Power supply	230-240 V - 50Hz
Volume capacity*	Upt to 50 m³
Dimensions in mm	W.552 x H.530 x D.590
Weight	45
Cooling power	1200 W
Absorbed power	900 W
Noise level into the cellar (at 1m & at 3m)	51 dB / 47 dB
Air flow inside the cellar (cold side)	400 to 500m³/h
Outside Air flow (Hot side)	350 à 550m³/h
Coolant	R404 A
Heating resistance	500 W

* in a well insulated wine cellar
