Cooling, Chilling, Display & Dispensing Equipment

## The Wine Corner Selection

Wine Corner understands the importance of temperature-controlled storage for wine and champagne. They also know the journey is not complete until the wine is in the glass and ready for the customer to enjoy just as the wine maker intended. That is why this unique selection of chilling, preservation and display appliances have been added to the storage and conditioning range of equipment, assisting fine dining establishments to find everything they need from a supplier that cares about the end result and the customer experience.

### The last few words...

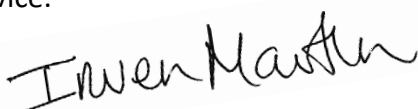

Wine Corner Ltd is a company established for nearly 20 years with many more years technical experience in the cooling and chilling sector, for both home and commercial settings.

With the largest selection of wine conditioning equipment in Europe and a dedicated team of in-house engineers, we haven't yet come across a wine cellar, wine room or wine wall specification that we haven't been able to provide a solution for. From penthouse suites to cellars and super-yachts, we have exclusive distribution agreements direct with manufacturers to ensure you get the optimal solution to protect, store, display and serve your wine.

You are welcome to call or message us with your enquiries which will go directly to members of our team who in turn have direct access to our own engineers.

What matters are quality products with the correct specification to deliver the performance for your particular requirements and situation. This is where Wine Corner is different to everyone else when it comes to providing wine storage solutions.

We look forward to hearing from you – please scan the QR code at the bottom of the page to go directly to our website. If there's something you can't find, just call us – it's all part of the Wine Corner service.
